

BENCE BAKOS

Cognitive Psychology student

ABOUT ME

I am a Cognitive Psychology graduate student at ELTE. Professionally I am mostly interested in improving psychological research methods. I love programming in R and I am getting more and more confident using it. In the future, I would like to obtain a PhD In Psychology.

Russian

EDUCATION

Cognitive Psychology MA (2020-)

Eötvös Loránd University

Chose Cognitive Psychology as my specialization because I am mostly interested in research and statistics.

Psychology BA (2016-2020)

Eötvös Loránd University

My favourite subjects were research methods, but my thesis focused on a new approach of studying how people choose romantic partners.

High School (2011-2016)

VII. Kerületi Madách Imre Gimnázium

Studied biology on an advanced level and got several TOP 3 Madách Kupa placements in physics and English language.

EXPERIENCE

Research Assistant (2017-)

ELTE Decision Lab

I joined ELTE Decision Lab in February 2017. Participated in several research projects. Worked mostly on international replication attempts and meta-research projects. Employed officially several times by ELTE.

Recruitment Trainee (Sep 2019 – Mar 2020)

Hadron Finsys GmbH

My main task was to search for IT experts for various partner companies. Approached candidates, conducted interviews, prepared CVs, etc.

Field Interviewer (Apr 2019 – Jun 2019)

STATEK Centre for Statistical Analysis Ltd.

Field interviewer for the pilot study of Eurostat concerning gender-based violence.

MY SKILLS

- Data analysis: familiar user of RStudio and the tidyverse environment: data manipulation, statistical analysis, data visualization.
- Research activities: general project management, running experiments, communication with international collaborators, translation of materials.
- I think I possess great problem-solving skills; I am precise and I am adept in engaging in otherwise monotonous tasks.

HOBBIES

- Sports: football & motorsports
- Video games: all kinds of genres
- Philosophy (of science): I enjoy reading philosophy
